SAFETY INSTRUCTIONS : Bungee / giant swing

--- Before the jump:

1 / Empty your pockets and remove any object that could fall out during the jump. 2 / Do not interfere with the jump equipment. 3 / Listen carefully to the safety instructions given to you by the jumpmasters.

--- At the start and during the jump:

1 / Jump only after you have received the order from the jumpmaster. 2 / Do not touch anything and push away with your legs into a dive. 3 / Also, for tandem giant swing jumps: hold on to each other by the harness belt, hold your head straight and push off together. 4 / Do not touch anything and do not try to catch hold of anything before the end of the rebounds or until ordered to do so by a jumpmaster.

--- After the jump:

Hook the karabiner of the ascent cable onto your chest and screw it closed.

--- I declare that I do not suffer from any of the contraindications and that to my knowledge I do not have, or had, any illness, accident or have undergone surgery that may pose a risk or a contraindication to performing a bungee jump / pendulum swing (see the below list of contraindications).

--- I have read the contraindications and accept the terms (see below).

--- I have read the "Bungee / giant swing safety instructions", and I agree to observe and respect them during my bungee jump / giant swing. (See cons).
